

Introduction to filesystem and shell

IT WS I - Lecture 2

Saurabh Barjatiya

International Institute Of Information Technology, Hyderabad

15 August, 2009

Contents

- 1 Introduction to filesystem
 - About files / directories
 - Working with files / directories
- 2 Introduction to shell
 - Shell commands

About files / directories

- What is file?

About files / directories

- What is file?
- What is directory?

About files / directories

- What is file?
- What is directory?
- Windows Drives

About files / directories

- What is file?
- What is directory?
- Windows Drives
- Linux root

About files / directories

- What is file?
- What is directory?
- Windows Drives
- Linux root
- Path
 - Absolute path

About files / directories

- What is file?
- What is directory?
- Windows Drives
- Linux root
- Path
 - Absolute path
 - Relative path

Working with files / directories

- Creating / Editing / Deleting simple text files using GUI editor

Working with files / directories

- Creating / Editing / Deleting simple text files using GUI editor
- Cut / Copy / Paste text

Working with files / directories

- Creating / Editing / Deleting simple text files using GUI editor
- Cut / Copy / Paste text
- Creating / Deleting / Moving directories

Working with files / directories

- Creating / Editing / Deleting simple text files using GUI editor
- Cut / Copy / Paste text
- Creating / Deleting / Moving directories
- Information of file size / folder size

Working with files / directories

- Creating / Editing / Deleting simple text files using GUI editor
- Cut / Copy / Paste text
- Creating / Deleting / Moving directories
- Information of file size / folder size
- Zipping files, Creating .zip, .tar, .tar.gz, .tar.bz2

Working with files / directories

- Creating / Editing / Deleting simple text files using GUI editor
- Cut / Copy / Paste text
- Creating / Deleting / Moving directories
- Information of file size / folder size
- Zipping files, Creating .zip, .tar, .tar.gz, .tar.bz2
- Extracting .tar / .tar.gz / .tar.bz2 les

Working with files / directories

- Creating / Editing / Deleting simple text files using GUI editor
- Cut / Copy / Paste text
- Creating / Deleting / Moving directories
- Information of file size / folder size
- Zipping files, Creating .zip, .tar, .tar.gz, .tar.bz2
- Extracting .tar / .tar.gz / .tar.bz2 les
- Explain storage units like bits, bytes, nibble, KB, MB, GB

Working with files / directories

- Creating / Editing / Deleting simple text files using GUI editor
- Cut / Copy / Paste text
- Creating / Deleting / Moving directories
- Information of file size / folder size
- Zipping files, Creating .zip, .tar, .tar.gz, .tar.bz2
- Extracting .tar / .tar.gz / .tar.bz2 les
- Explain storage units like bits, bytes, nibble, KB, MB, GB
- Data transfer units bits/sec and storage device specication units.

Contents

- 1 Introduction to filesystem
 - About files / directories
 - Working with files / directories
- 2 Introduction to shell
 - Shell commands

Shell commands - 1

- `ls`, `ls -l`, `ls -a`

Shell commands - 1

- `ls`, `ls -l`, `ls -a`
- `mkdir`, `mkdir -p`

Shell commands - 1

- `ls`, `ls -l`, `ls -a`
- `mkdir`, `mkdir -p`
- `rmdir`

Shell commands - 1

- `ls`, `ls -l`, `ls -a`
- `mkdir`, `mkdir -p`
- `rmdir`
- `touch`

Shell commands - 1

- `ls`, `ls -l`, `ls -a`
- `mkdir`, `mkdir -p`
- `rmdir`
- `touch`
- `rm`, `rm -r`, `rm -f`

Shell commands - 1

- `ls`, `ls -l`, `ls -a`
- `mkdir`, `mkdir -p`
- `rmdir`
- `touch`
- `rm`, `rm -r`, `rm -f`
- `cd`

Shell commands - 1

- `ls`, `ls -l`, `ls -a`
- `mkdir`, `mkdir -p`
- `rmdir`
- `touch`
- `rm`, `rm -r`, `rm -f`
- `cd`
- `echo`

Shell commands - 1

- `ls`, `ls -l`, `ls -a`
- `mkdir`, `mkdir -p`
- `rmdir`
- `touch`
- `rm`, `rm -r`, `rm -f`
- `cd`
- `echo`
- `clear`

Shell commands - 2

- `gedit` (Not shell command, GUI editor)

Shell commands - 2

- `gedit` (Not shell command, GUI editor)
- `tree`

Shell commands - 2

- `gedit` (Not shell command, GUI editor)
- `tree`
- `mv`

Shell commands - 2

- `gedit` (Not shell command, GUI editor)
- `tree`
- `mv`
- `cp`, `cp -r`, `cp -u`, `cp -p`

Shell commands - 2

- gedit (Not shell command, GUI editor)
- tree
- mv
- cp, cp -r, cp -u, cp -p
- cat

Shell commands - 2

- gedit (Not shell command, GUI editor)
- tree
- mv
- cp, cp -r, cp -u, cp -p
- cat
- more

Shell commands - 2

- gedit (Not shell command, GUI editor)
- tree
- mv
- cp, cp -r, cp -u, cp -p
- cat
- more
- less

Shell commands - 2

- gedit (Not shell command, GUI editor)
- tree
- mv
- cp, cp -r, cp -u, cp -p
- cat
- more
- less
- head, head -<number>

Shell commands - 2

- gedit (Not shell command, GUI editor)
- tree
- mv
- cp, cp -r, cp -u, cp -p
- cat
- more
- less
- head, head -<number>
- tail, tail -<number>

Shell commands - 2

- gedit (Not shell command, GUI editor)
- tree
- mv
- cp, cp -r, cp -u, cp -p
- cat
- more
- less
- head, head -<number>
- tail, tail -<number>
- wc

Shell commands - 3

- `du`, `du -s`, `du -h`, `du -sh`

Shell commands - 3

- `du`, `du -s`, `du -h`, `du -sh`
- `tar cvf` `tar xvf`

Shell commands - 3

- `du`, `du -s`, `du -h`, `du -sh`
- `tar cvf` `tar xvf`
- `gzip`

Shell commands - 3

- `du`, `du -s`, `du -h`, `du -sh`
- `tar cvf` `tar xvf`
- `gzip`
- `gunzip`

Shell commands - 3

- `du`, `du -s`, `du -h`, `du -sh`
- `tar cvf` `tar xvf`
- `gzip`
- `gunzip`
- `bzip2`

Shell commands - 3

- `du`, `du -s`, `du -h`, `du -sh`
- `tar cvf` `tar xvf`
- `gzip`
- `gunzip`
- `bzip2`
- `bunzip2`

Shell commands - 3

- `du`, `du -s`, `du -h`, `du -sh`
- `tar cvf` `tar xvf`
- `gzip`
- `gunzip`
- `bzip2`
- `bunzip2`
- `zip`

Shell commands - 3

- `du`, `du -s`, `du -h`, `du -sh`
- `tar cvf` `tar xvf`
- `gzip`
- `gunzip`
- `bzip2`
- `bunzip2`
- `zip`
- `unzip`

Shell commands - 4

- which

Shell commands - 4

- which
- whereis

Shell commands - 4

- which
- whereis
- apropos

Shell commands - 4

- which
- whereis
- apropos
- man, man -aK

Shell commands - 4

- which
- whereis
- apropos
- man, man -aK
- find

Shell commands - 4

- which
- whereis
- apropos
- man, man -aK
- find
- locate

Shell commands - 4

- `which`
- `whereis`
- `apropos`
- `man`, `man -aK`
- `find`
- `locate`
- `grep`, `grep -v`, `grep -A<n>`, `grep -B<n>`

Shell commands - 5

- W

Shell commands - 5

- w
- who

Shell commands - 5

- w
- who
- whoami

Shell commands - 5

- w
- who
- whoami
- /sbin/ifconfig

Shell commands - 5

- w
- who
- whoami
- /sbin/ifconfig
- ping

Shell commands - 5

- w
- who
- whoami
- /sbin/ifconfig
- ping
- ln, ln -s

Shell commands - 5

- w
- who
- whoami
- /sbin/ifconfig
- ping
- ln, ln -s
- free, free -m

Shell commands - 5

- w
- who
- whoami
- /sbin/ifconfig
- ping
- ln, ln -s
- free, free -m
- script

Shell commands - 5

- w
- who
- whoami
- /sbin/ifconfig
- ping
- ln, ln -s
- free, free -m
- script
- df, df -h

Shell commands - 5

- w
- who
- whoami
- /sbin/ifconfig
- ping
- ln, ln -s
- free, free -m
- script
- df, df -h
- chmod
